Food Brokerage Event

introduction

The 5th Edition of Murcia's International Food Brokerage Event 2011 will present the latest creations in the field of food technology, providing companies from different European countries with an excellent opportunity to hold bilateral meetings aimed at establishing technology cooperation agreements.

parallel events

A number of conferences and presentations will take place within the 5th International Symposium on Food Technology, in which the latest creations in the sector are presented.

The I Forum of Food Technology Cooperation USA - Spain will be held on the second day with the aim of facilitating direct contact between the R&D players. Some of the leading USA specialists will participate in this I Forum intended to favor benchmarking and discussions among attendees.
